

# “Yes, And...Hire Me!”

## Improv Workshops for University Students in the Job Market

Our improvisation-based workshops help students to confidently communicate and creatively handle rapidly changing scenarios.

Students learn to ‘IMPROVe’ how they articulate the value of their education in the workplace.

### Testimonials from University Faculty and Staff

“Inviting Advantage Improv to conduct their “Yes, And...Hire Me!” workshop with students at the University of San Diego was a wonderful initiative! Advantage Improv led students through a fun, interactive and helpful event that pushed our students to stretch in their ability to communicate their strengths to potential employers. It was an outstanding program. By using improv, students felt more confident about interacting in what is typically a stressful situation. We’ll definitely have Advantage Improv back on campus.”

*Robin Darmon, Director, Career Development Center, University of San Diego*

“Advantage Improv’s “Yes, And...Hire Me!” workshop was a valuable learning experience for my students. Trainers Lee Godden and Bob Doll delivered a high-energy curriculum. It was delightful to see how the students reacted with each other during the improv exercises. Advantage Improv created a safe, inclusive environment that minimized students’ fears about being “on stage” in front of their peers. I loved how the improvisation-based mental agility skills they taught are practical and actionable in the real world of job search, career development and interpersonal relations.”

*Valerie Sheppard, Faculty, Merage School of Business, University of California, Irvine*
